LEAN Pull Design Webinar

May 5, 1:30 PM

Do you need to improve manufacturing performance by reducing inventory, improving flow, and reducing cycle times?

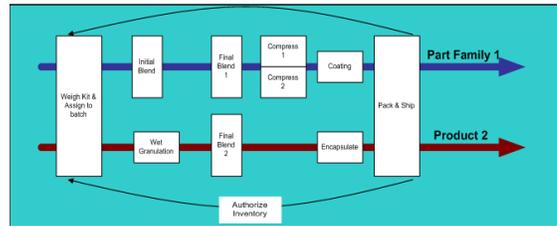

Do you want to use LEAN in your high-mix, non-automotive manufacturing?

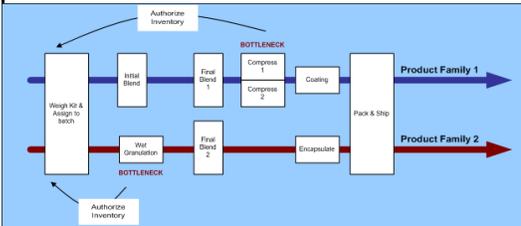

Kanban

Which type(s) of pull is best for my company: Kanban, CONWIP, Drum-Buffer-Rope, etc.?

How can LEAN best practices be successfully implemented in high-mix, non-automotive environments?

CONWIP

Drum-Buffer-Rope

How do you achieve optimum inventory levels?

How do I show the benefits?
